

Gulf Form Oil M

Concrete mould release oil

Product Description

Gulf Form Oil M is ready-to-use concrete mould release oil specially formulated with high quality mineral oil to ensure easy and clean concrete release from steel and coated moulds. It contains a special mould releasing agent to prevent sticking of concrete on moulds which imparts superior surface finish. **Gulf Form Oil M** also minimizes surface irregularities, reduces voids and provides rust protection for metal forms during brief period of outdoor storage. It is applied to the mould by swabbing or brushing, spraying as a thin layer and can also be used for the manufacturing of concrete in heated moulds.

Features & Benefits

- Easy release of concrete from moulds and prevents sticking
- Imparts superior surface finish to concrete
- Protects metal forms against rust for a brief period of outdoor storage
- Good protection against deposits
- Also suitable for application where tiles and wallpapers are to be affixed
- Solvent Free, odorless and does not discolor concrete surfaces

Application

- Wide variety of concrete moulds used in construction industries
- All types of forms / moulds where use of mineral oil based releasing agent is recommended

Typical Properties

Typical Properties		
Test Parameters	ASTM Method	Test Values
ISO VG	ISO 3448	10
Density @ 15°C, Kg/l	D 4052	0.849
Viscosity @ 40 °C, cSt	D 445	10.01
Flash Point, °C	D 92	>202
Pour Point, °C	D97	-15
Total Acid Number, mg/KOH/g	D974	1.02

Only for GOSCO; Date: 08/01/2018

Properties mentioned above are typical only and minor variations, which do not affect the product performances, are to be expected in normal manufacturing. The above information is based on past history of the grade only and must not be construed as a guarantee of performance. Follow equipment manufacturer's recommendations for performance level and viscosity grade. The Material Safety Data Sheet for this product is available from your nearest Gulf Distributor.
